

# GREE Verty

## Triple Purification

The air filtration system comprises a washable and durable filter screen as the first line of defense, adept at removing coarse particles. The two-in-one composite filter merges a HEPA filter with an activated carbon filter, proficiently filtering over 95% of fine particles and absorbing harmful gases and odors for comprehensive air purification.

## UV Bacteria Prevention

The LED ultraviolet lamp, characterized by its compact size, extended lifespan, and absence of ozone generation, emits potent ultraviolet light. This emission proves highly effective in inhibiting the growth of bacteria and viruses simultaneously.

Features:  Standard  Optional

Humidity Display	Multiple Fan Speeds	Air Flow	Auto	Vertical Auto Swing	LED Display	Quiet Design	24-hour Timer
Self Diagnosis	Auto Restart	Intelligent Defrost	Water Level Display	Water Full Indicator	Water Overflow Protection	External Drain Connector	Removable Water Tank
Filter Cleaning Reminder	Easy Roll Casters	UV	Multi-functional Filters	Cold Plasma Air Purification Technology
